PizzaShop

Task

You have been hired by your local pizza shop to make an online ordering interface. Complete the three functions in pizzaShop.js so that your interface now works.

Watch the video below to see the desired functionality.
https://drive.google.com/open?id=0B5k3xaRdJuhtOXc3X3F5NGxlUm8

Constraints

- Your interface displays the total when you hit the calculate total button.
- The extra cheese checkbox enables when cheese radio button is selected AND disables and unchecks when the no cheese radio button is selected.
- The toppings checkboxes are disabled and unchecked if the none option is selected AND the toppings checkboxes are enabled if the none box is unselected.

Costs:
Crusts - £10
Gluten Free Crust - £15
Extra Cheese - £5 more
Each Topping - £3
